The Twelve-Factor App

Motivation

- Raise awareness of some systemic problems seen in modern application development.
- Provide a shared vocabulary for discussing those problems.
- Offer a set of broad conceptual solutions to those problems with accompanying terminology.

The Twelve-Factor App

I. <u>Codebase</u>

VII. Port Binding

II. <u>Dependencies</u>

VIII.Concurrency

III. Config

IX. Disposability

IV. <u>Backing Services</u>

X. Dev/Prod Parity

V. Build, Release, Run

XI. Logs

VI. Processes

XII.Admin Processes
